

Manufacturing

Paper Making

At Shoalhaven Paper Mill it is our objective to manufacture and distribute fine quality paper in an environmentally responsible and community focused manner.

The systems at Shoalhaven Paper Mill aim to provide a safe and healthy workplace for employees, contractors and visitors.

The Mill has achieved certification for its Quality and Environmental Management Systems. The systems have been developed to meet the requirements of the International Standards (Quality ISO 9001 and Environment ISO 14001). DNV, an external audit company, conducts regular audits of the systems to ensure they continue to meet the requirements of the standard.
